

# Nexl At A Glance

## What is Nexl?

Nexl is an all-in-one, no-data-entry CRM, client intelligence, and collaboration platform that helps you turn relationships into revenue.

### What Nexl Does:

- ✓ Automatically capture & enrich your contacts
- ✓ Generate valuable relationship insights
- ✓ Empower firm-wide collaboration

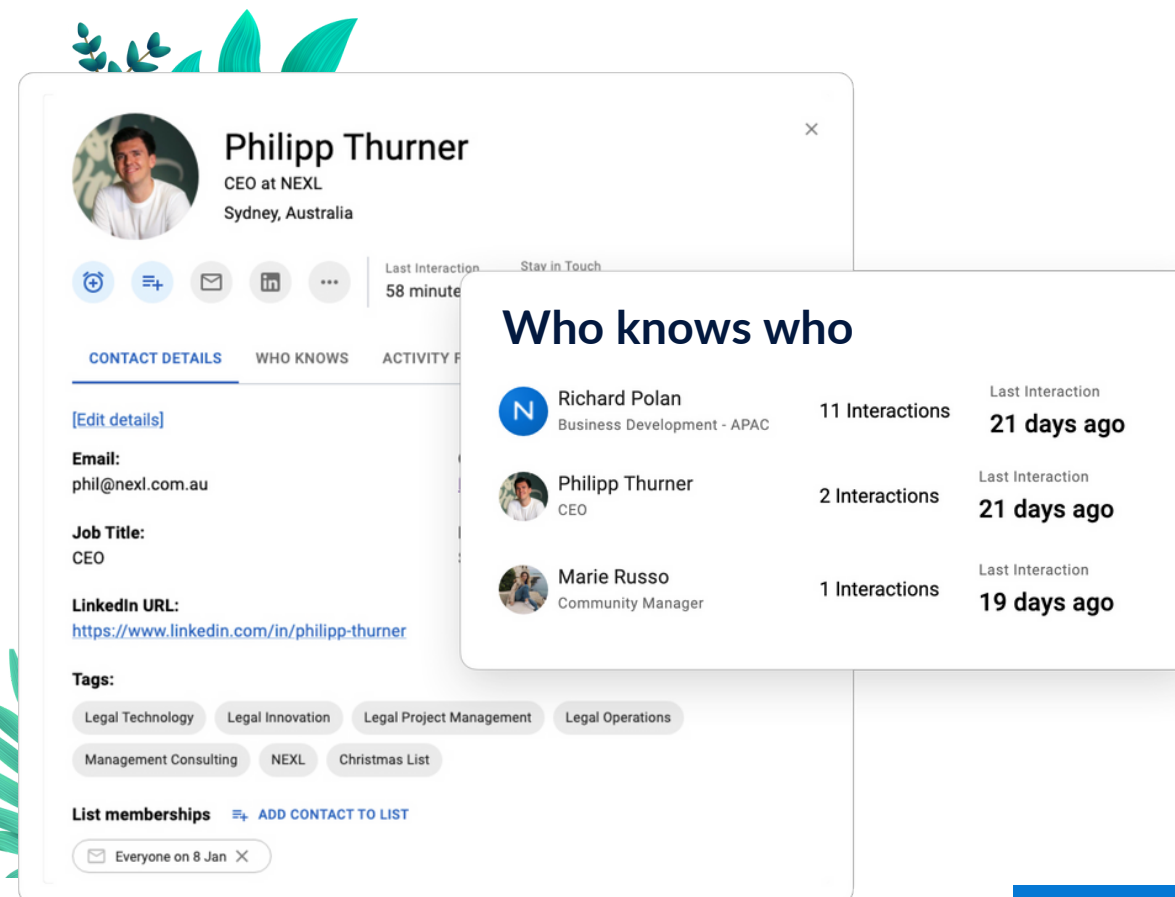

### What Nexl Doesn't:

- Read your emails or scrape signatures ✗
- Expose confidential or privileged information ✗
- Enable your firm to monitor your behavior ✗

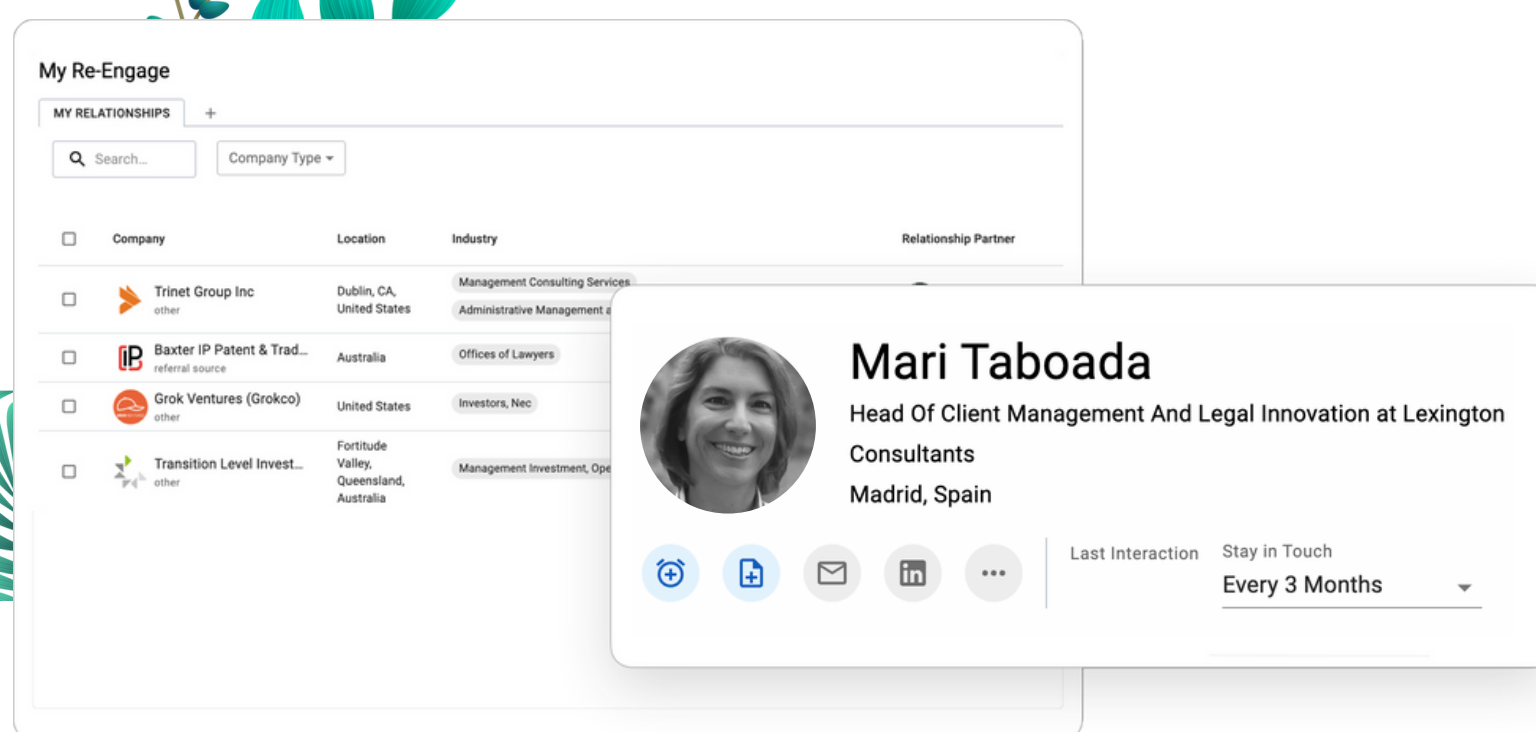

### Never miss a contact with automated data entry

Nexl automatically pulls in information from your email and calendar, then enriches it with social media and other data sources.

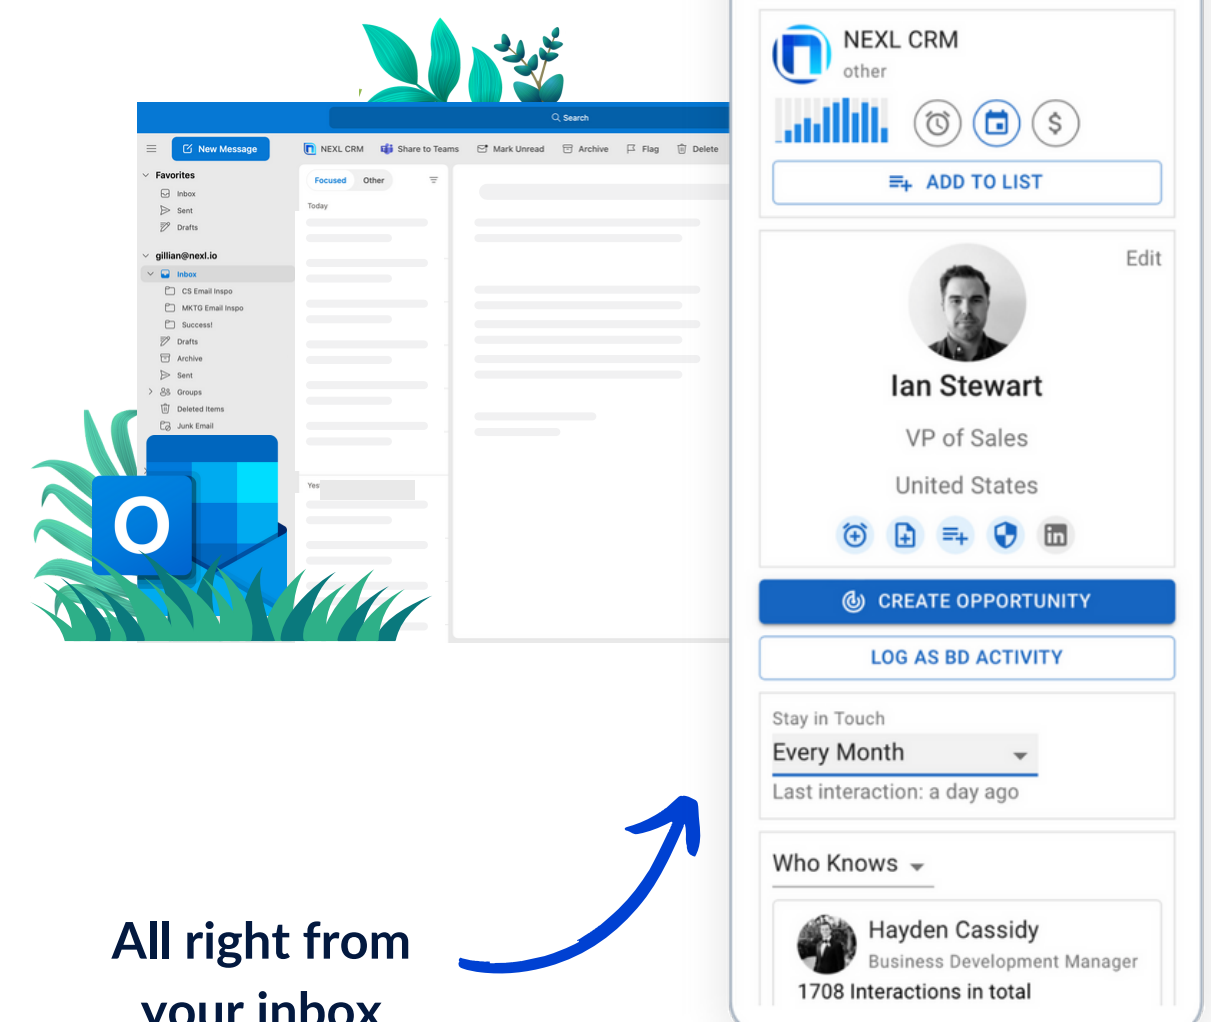

### Loop in the best people to get referrals and close deals

See shared contacts by level of interaction to loop in the right people at the right time.

### Proactively manage your most important relationships

Set automated Stay-In-Touch reminders and discover which contacts are ripe for re-engagement.

### All right from your inbox

Add contacts, create opportunities, and set Stay-In-Touch reminders with Nexl's Outlook add-in.
